APA Cables & Networks

www.apacn.com

5480 Nathan Lane
Plymouth, MN 55442
Tel: 763-476-6866

Jim Eckert: jeckert@apacn.com

Ernie Power: epower@apacn.com

APA Cables & Networks (APACN) is a leading provider of fiber connectivity systems designed to meet the unique and demanding requirements of today's independent telephone, cable television and municipal networks. The APACN product line, including fiber frames and panels, OSP cabinets and optical components, offers an innovative, modular and scalable platform designed for use in central office and OSP architectures and has successfully been deployed in some of the harshest of FTTH environments. A full-line of fiber and copper assemblies complement the APACN solution.

API Digital Communications Group

www.api-digital.com

1821 University Drive
Huntsville, AL 35801
Tel: 256-428-8700

Alex Vanderwerff: alex@apid.com

Wade Blevins: wblevins@apid.com

API Digital's reputation of running a strong network earned the classification of an ISP's Service Provider. By having a strong network design methodology, delivering true Tier1 bandwidth aggregation services and strict uptime standards, API successfully helps Independent Telephone and Cable companies provide world-class Internet Support Services to their customers. API Digital provides the bandwidth, infrastructure support, and end-user technical support – exercising flexibility in customizing solutions for specific applications.

Zhone Technologies has developed the most comprehensive and flexible Broadband Loop Carrier (BLC) solutions in the Telecommunications industry today. The MALC enables telecommunications and other service providers to offer innovative voice, broadband, IPTV and full Triple Play services over copper or fiber. ADSL2+, SHDSL, ReachDSL, T1 EFM, SHDSL EFM, GPON and Active Ethernet solutions give telco service providers flexibility and scalability to expand their offerings to meet any of their customer's needs. Providing CPE and NIDs round out a total offering to the total solution.
